#APAC2022 #SADCTFCAs

Introduction

The Southern African Development Community (SADC) is a Regional Economic Community comprising 16 Member States (Angola, Botswana, Comoros, Democratic Republic of Congo, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Tanzania, Zambia and Zimbabwe). The SADC region is endowed with diverse natural capital, within aquatic, coastal and terrestrial ecosystems of global significance for conservation of biological diversity that supports social and economic development. The regional economy continues to depend primarily on natural resources such as forestry, fisheries, and wildlife. Furthermore, about 75% of the rural communities depend directly on these natural resources for their livelihoods. In their efforts to conserve their national resources, the SADC region has developed key Protocols on Wildlife and Law Enforcement (1999), Shared Watercourses (2000), Forestry (2002), Fisheries (2006), Tourism (2009) and Environmental Management for Sustainable Development (2014), as well as Programmes and Strategies on Forestry (2009), Transfrontier Conservation Areas (TFCAs) (2013), Law Enforcement and Anti-Poaching (LEAP) (2015), Climate Change (2015) and Tourism (2019), amongst others.

The total SADC protected Protected Area (PA) estate comprises of 3940 PAs, covering approximately 1,900,000 km² in terrestrial and 475,000 km² in coastal and marine environments. Recognising that ecosystems across the globe are interrupted by political boundaries, the SADC region recognises the establishment of Transfrontier Conservation Areas as an important vehicle for SADC Member States to collaborate with the aim of increasing landscape connectivity and conservation success. A TFCAs is defined as a component of a large ecological region that straddles the boundaries of two or more countries encompassing one or more protected areas as well as multiple resource use areas. Importantly, SADC TFCAs consist of different forms of protected areas from national reserves, game reserves, forestry reserves, communal conservation lands, among others. The SADC Regional Indicative Strategic Development Plan (RISDIP 2020 -2030) describes TFCAs as important area for regional cooperation in addressing strategic objective 6, under cross cutting Pillar 5, on

The total SADC Protected Area (PA) estate comprises of

in coastal and marine environments.

"sustainable utilization and conservation of the natural resources and effective management of environment", through integrated cross border natural resources management. There are currently 18 TFCA in 16 countries in different stages of development, covering over 1,000,000 km².

APAC provides an excellent platform for SADC to raise regional and global awareness of best practice in the management of TFCAs, as well as seeking solutions to the challenges and constraints. These include the need for financing mechanisms such as the SADC TFCA Facility to become sustainable, requiring further resource mobilisation linked to other similar mechanisms, as well as a number of policy bottlenecks that constrain the ability of SADC to unlock the full potential of its wildlife economies. The objectives of the SADC pavilion are therefore to:

- Showcase SADC TFCA implementation across the region as a great chain for regional integration and development through its connected ecosystems;
- Catalysing partnerships and attracting donors to promote sustainable financing for SADC TFCAs;
- Seeking solutions for challenges of managing Protected Areas in current context (e.g community livelihoods and wildlife economies).

- ESTABLISHED TFCAs**
- 1 /AI/Ais-Richtersveld TP* (NAMIBIA/SOUTH AFRICA*)
 - 2 Ngalandi TP* (BOTSWANA/SOUTH AFRICA)
 - 3 Kavango Zambezi TFCA* (ANGOLA/BOTSWANA/NAMIBIA/ZAMBIA/ZIMBABWE)
 - 4 Great Limpopo TP and TFCA* (MOZAMBIQUE/SOUTH AFRICA/ZIMBABWE)
 - 5 Lubombo TFCA* (MOZAMBIQUE/SOUTH AFRICA/SWAZILAND)
 - 6 Malawi - Zambia TFCA* (MALAWI/ZAMBIA)
 - 7 Maloti - Drakensberg TFCA* (LESOTHO/SOUTH AFRICA)
 - 8 Ina - Skeleton Coast TP (ANGOLA/NAMIBIA)

DAILY CALENDAR FOR THE SADC PAVILION (STAND 16)

	TUESDAY 19 JULY	WEDNESDAY 20 JULY	THURSDAY 21 JULY	FRIDAY 22 JULY	SATURDAY 23 JULY
09:00-10:30	*No formal Pavilion Agendas during plenary high-level opening & networking*	Conservation Clinic: Challenges & lessons from protected area planning & management in Great Limpopo Transfrontier Conservation Area (GLTFCA)	Introducing the KAZA Carnivore Conservation Coalition & the important role that TFCA's play in the conservation of wild cats (Panthera, KAZA, WildCRU, Lion Recovery Fund)	Conservation clinic: Critical management & leadership success factors for tourism concessions (IUCN TAPAS, GIZ)	
10:30-12:00		Novel approaches to address drivers of wildlife trafficking in Great Limpopo, Kavango-Zambezi (KAZA) & Malawi-Zambia TFCA (USAID, WWF, IFAW)	Demonstrating the Values of SADC TFCA's & Understanding the Funding Modalities for Investment (SADC, GIZ)	Cross-border nature-based tourism market development in SADC TFCA's (SADC, Boundless Southern Africa, GIZ)	
12:00-14:00		Addressing Law Enforcement & Anti-Poaching (LEAP) as a region: successes & challenges (SADC, USAID VukaNow, GIZ Partnership, TRAFFIC)	Donor coordination: How the newly launched SADC TFCA Financing Facility can enhance investment in TFCA's & PA management (SADC, IUCN, KfW)	SADC Transfrontier Conservation Areas: an innovative approach to landscape connectivity, socio-economic development, and regional integration (SADC, Member States)	Making TFCA's more inclusive and responsive to community needs (USAID Resilient Waters, GIZ)
14:00-15:30		Development & management of cross-border coastal & marine protected areas – experiences, lessons learnt & opportunities (SADC, Lubombo TFCA, WIOMSA)	Experiences & lessons on community fisheries in the Namibian component of KAZA TFCA's (Namibia Nature Foundation)	Local Communities: First Line of Defense (FLoD): a tool for verifying assumptions when engaging local communities (SADC, IUCN, SAWC)	*No formal Pavilion Agendas during plenary high-level closing*
16:00-17:30			Developing new approaches to enhance the wildlife economy of the Greater Kruger Area in South Africa (Conservation Outcomes)	Panel discussion: Introducing Transboundary Water Governance in the Transboundary Natural Resource Management (TBNRM) Framework for Africa (USAID Resilient Waters)	
18:00-20:00	Official opening: Successes and challenges of cross-border conservation and protected area management in SADC (SADC)	Movie night: Meeting the people behind Transfrontier Conservation Area development across SADC (/Ai/Ais-Richtersveld, KAZA, Lubombo & Malawi-Zambia TFCA)	Towards a regional Wildlife-based Economy Framework: contributing to transformative economic growth and job creation (SADC, GIZ, UNEP)		

Daily Calendar for Tuesday 19 th July 2022	
18:00-20:00	<p>Official opening: Successes & challenges of cross-border conservation & protected area management in SADC (SADC)</p> <p>Session brief: During this session the Zimbabwe Minister, SADC Secretariat and the German Development Bank (KfW) will deliver keynote speeches, referring to the importance of increased political commitment for cooperation and collaboration between the SADC region and other blocks across Africa on protected area conservation and sustainable utilisation of wildlife products.</p> <p>Following official remarks, a presentation will be held by IUCN providing an overview on the status of protected areas in the SADC Region, as well as the contribution to Global Biodiversity Targets. The session will be closed by the Government of Mozambique.</p> <p>Main speakers:</p> <ul style="list-style-type: none"> • Hon Deputy Minister Barbara Rwodzi (Zimbabwe) • Mr. Domingos Gove, Director, Food, Agriculture and Natural Resources (FANR) Directorate, SADC Secretariat • Mr. Carsten Sandhop, Head of Division LAA4 Governance Division Sub-Saharan Africa, KfW • Ms. Celmira da Silva, Director General, ANAC (Mozambique)
Daily Calendar for Wednesday 20 th July 2022	
09:00-10:30	<p>Conservation Clinic: Challenges & lessons from protected area planning & management in Great Limpopo Transfrontier Conservation Area (GLTFCA)</p> <p>Session brief: The session will be structured to present on TFCAs and protected area planning in the GLTFCA area zooming into successes and challenges of the three country components, keeping in mind the following : 1) Management planning processes at two or more scales 2) Inclusion of large scale wildlife movement and how this can be incorporated into the planning processes 3) The role and capacity of communities participating in protected area planning processes 4) Enabling conditions for effective protected area planning using recent examples to illustrate issues. The session will be closed by a moderated discussion.</p> <p>Moderator: Dr. Dave Balfour, Conservation Planning Expert, Flat Crown Consulting</p> <p>Main speakers:</p> <ul style="list-style-type: none"> • Mr. Gwinyai Muti, International Coordinator, GLTFCA • Dr. Marisa Coetzee, General Manager Regional Integration and Planning, SANParks (South Africa) • Mr. Cornelio Miguel, TFCA Coordinator, ANAC (Mozambique) • Mr. Hugo van der Westhuizen, Director, Gonarezhou Conservation Trust (Zimbabwe)
10:30-12:00	<p>Novel approaches to address drivers of wildlife trafficking in Great Limpopo, Kavango-Zambezi (KAZA) & Malawi-Zambia TFCA (USAID, WWF, IFAW)</p> <p>Session brief: The USAID Combatting Wildlife Crime Program has supported landscape grants to address wildlife trafficking impacts on wildlife and people in three TFCAs – Kavango Zambezi Transfrontier Conservation Area (KAZA TFCA), Greater Limpopo Transfrontier Conservation Area (GLTFCA) and Malawi-Zambia Transfrontier Conservation Area (MAZA TFCA) supported by VukaNow. The intent of these grants from the outset was to co-create solutions which recognise the complexity of the challenge of wildlife trafficking in southern Africa. This session will provide an overview of some of the activities undertaken through the presentation of case studies from partners from each landscape. The case studies will be followed by a reflective panel discussion with key implementers of landscape grants in order to identify shared challenges, successes and lessons learned for the design and implementation of such programmes in future.</p> <p>Main speakers:</p> <ul style="list-style-type: none"> • Ms. Angela Hogg, Director of the Regional Environment, Education and Democracy Office at USAID/Southern Africa • Mr. Imakando Sinyama, Learning Advisor, USAID VukaNow • Mr. Simson Uri-Khob, CEO, SRT, Namibia • Ms. Bakholise Jojo, Community Projects Lead, WWF South Africa • Mr. Cornelio Miguel, TFCA Coordinator, ANAC (South Africa) • Dr. Jo Shaw, Senior Manager: Wildlife, WWF South Africa

Daily Calendar for Wednesday 20th July 2022 *contid.*

12:00-14:00

Addressing Law Enforcement & Anti-Poaching (LEAP) as a region: successes & challenges (SADC, USAID VukaNow, GIZ Partnership, TRAFFIC)

Session brief: The session will aim to provide an overview of the existing LEAP Strategy and the efforts towards the development of a revised LEAP Strategy. The session will start with an overview presentation by SADC on the LEAP Strategies as well as the key outcomes and successes. Furthermore, presentations will be held on key regional successes.

Main speakers:

- Mr. George Wambura, Programme Officer - Wildlife, SADC FANR
- Ms. Storme Viljoen, SADC-TWIX Project Manager, TRAFFIC
- Mr. Fyson Suwedi, Parks and Wildlife Officer, Malawi
- Mr. Edward Chilifya, Principal Wildlife Warden, Zambia
- Ms. Lara Rall, Project Implementation & Communications Manager, WWF South Africa
- Mr. Solani Dennis Mhango, Count Director, WWF Mozambique

14:00-15:30

Development & management of cross-border coastal & marine protected areas – experiences, lessons learnt & opportunities (SADC, Lubombo TFCA, WIOMSA)

Session brief: This session will present on existing and planned transboundary coastal and marine protected areas, diving into two concrete case-studies, namely:

- The coastal and marine component of the Lubombo TFCA (Eswatini, Mozambique, South Africa);
- Efforts to establish a new proposed coastal and marine TFCA between Kenya and Tanzania.

The speakers will also engage on their lessons learnt and opportunities moving forward.

Main speakers:

- Mr. Cornelio Miguel, TFCA Coordinator, ANAC (Mozambique)
- Mr. Arthur Tuda, Executive Director, Western Indian Ocean Marine Sciences Association (WIOMSA)

16:00-17:30

18:00-20:00

Movie night: Meeting the people behind the Transfrontier Conservation Area development across SADC (/Ai/Ais-Richtersveld, KAZA, Lubombo & Malawi-Zambia TFCA)

Sunshine Cinema's, a social impact NGO using video as their primary medium, will broadcast short 7–10-minute TFCA-videos developed through the SADC/GIZ C-NRM Programme, in a mobile cinema set-up used in rural communities. The TFCAs that will feature are /Ai/Ais-Richtersveld (Namibia, South Africa), KAZA (Angola, Botswana, Namibia, Zambia, Zimbabwe), Lubombo (Eswatini, Mozambique, South Africa) and Malawi-Zambia (Malawi, Zambia).

Moderated by Mr Rowan Pybus, Director of Sunshine Cinema's, participants can engage with experts from the TFCAs after each video.

TFCA experts:

- Ms. Naambo Josephine Ipinge, TFCA Coordinator, Ministry of Environment, Forestry and Tourism (Namibia) – ARTP
- Dr. Nyambe Nyambe, Executive Director, KAZA TFCA
- Mr. Cornelio Miguel, TFCA Coordinator, ANAC (Mozambique)
- Mr Sydney Tembo, TFCA Coordinator, Zambia – Malawi-Zambia TFCA

Daily Calendar for Thursday 21st July 2022

09:00-10:30

Introducing the KAZA Carnivore Conservation Coalition & the important role that TFCAs play in the conservation of wild cats (Panthera, KAZA, WildCRU, Lion Recovery Fund)

Session brief: This session will provide an overview of some key interventions undertaken by government and non-governmental organisations, to conserve carnivores in TFCAs. With a specific focus on the Kavango-Zambezi TFCA (KAZA) we will showcase the KAZA Carnivore Conservation Coalition as an example, and how this consortium of participants committed to working collaboratively, has developed comprehensive conservation programs for KAZA. These presentations will be followed by a panel discussion to identify shared successes and lessons learnt that could be applied to other African transboundary landscapes.

Moderator: Ms. Lisa Blanken, NRM Advisor, SADC/GIZ Climate Resilience and NRM Programme

Main speakers:

- Dr. Kristi Maciejewski, Regional Director: Southern and East Africa, Panthera
- Ms. Naambo Josephine Ipinge, TFCA Coordinator, Ministry of Environment, Forestry and Tourism (Namibia)
- Prof. Amy Dickman, Director, WildCRU
- Dr. Peter Lindsey, Director, Lion Recovery Fund (LRF)

10:30-12:00

Demonstrating the Value of SADC TFCAs & Understanding the Funding Modalities for Investment (SADC, GIZ)

Session brief: SADC's eighteen TFCAs, represent a unique, non-substitutable ecological asset spanning approximately 1,000,000 km² and covering terrestrial, coastal and marine environments. Despite the potential role of TFCAs in sustainable, economic, and social development in SADC, it has been difficult to quantify and communicate the tangible benefits generated by these areas to beneficiaries at local, regional, and global scales. Using case studies, the authors show the value of TFCAs to beneficiaries as well as the non-substitutable nature of these ecological assets. The study, due to be endorsed by Member States, further explores the barriers to investment into TFCAs, how they can be overcome and possible new mechanisms for future investment.

Main speaker:

- Mr. Kevan Zunckel, Consultant, Prime Africa

12:00-14:00

Donor coordination: How newly launched SADC TFCA Financing Facility can enhance investment in TFCAs & PA management (SADC, IUCN, BMZ, KfW)

On invitation only

Session brief: The SADC TFCA Financing Facility (TFCA FF) is a grant-making mechanism established to provide the basis for long-term and more sustainable funding to support conservation and management actions in TFCAs in the region. The TFCA FF has potential to play an important role in facilitating joint approaches in investing in TFCAs. This event aims to strengthen cooperation between the SADC TFCA FF, the community of donors and international organizations active in the SADC region in the areas of environment and sustainable development and to encourage future investment in the SADC TFCA FF

The Facility targets to raise additional funds with contributions from various International Cooperation Partners to reach a volume of up to €100 million in the medium to long-term to ensure continuous funding support to SADC TFCAs.

Moderator: Ms. Kaori Yasuda and Mr. Vhalinavho Khavhagali, IUCN ESARO

Main speakers:

- Hon. Minister Collins Nzovu (Zambia)
- Mr. Domingos Gove, Director, Food, Agriculture and Natural Resources Directorate, SADC Secretariat
- Mr. Carsten Sandhop, Head of Division LAA4 Governance Division Sub-Saharan Africa, KfW
- Mr. Luther Bois Anukur, Regional Director, IUCN ESARO
- Ms. Angela Hogg, Director of the Regional Environment, Education and Democracy Office, USAID Southern Africa
- Ms. Suzanne Yountchi, Regional Environment, Science and Technology Officer for Southern Africa, US Embassy in Botswana

Daily Calendar for Thursday 21st July 2022 *contd.*

14:00-15:30	<p>Experiences & lessons on community fisheries in the Namibian component of KAZA TFCA (Namibia Nature Foundation)</p> <p>Session brief: Co-managed Fisheries Reserves are waterbodies for which use restrictions are defined and enforced by local communities and which are officially recognized by the Namibian Government. It is a community-centric, ecosystem-based adaptation approach that improves the socio-ecological resilience of riverine communities while generating sound conservation outcomes. The session will demonstrate the success of this program and present our knowledge products, which includes guidelines, a milestone-based toolbox for operations and a virtual training for systematic and replicable learning. The products help streamline implementation and build capacity among other agencies who wish to contribute to building a network of reserves across national boundaries.</p> <p>NNF with its partners will soft-launch the new Standard Operating Procedures for Community Co-managed Fisheries Reserves in Namibia, together with the Tackle Box, a step-by step instruction for practitioners supporting the establishment of fish sanctuaries.</p> <p>Main speakers:</p> <ul style="list-style-type: none">• Ms. Britta Hackenberg, Director of Projects, Namibia Nature Foundation• Dr. Nyambe Nyambe, Executive Director, KAZA TFCA• Mr. Sekgowa Motsum, Director Okavango Basin Program, The Nature Conservancy• Mr. Faraimunashe Mavhiya, Biodiversity Advisor, USAID Resilient Waters Project• Prof. Andrew Nambota, Regional Manager, PPF Zambia
16:00-17:30	<p>Developing new approaches to enhance the wildlife economy of the Greater Kruger Area in South Africa (Conservation Outcomes)</p> <p>Session brief: It is essential to develop new models of community involvement which enable meaningful economic benefits to communities, based on a growing and sustainable rural economy, and proper joint responsibility in protected area management. An under-utilised potential income stream in South Africa includes game meat production. But if it is to be an effective means of deriving income, it must be ethically undertaken and under-pinned by best management practices such as effective, transparent and justifiable wildlife management systems. Such an approach is being explored in the Greater Kruger Area, incorporating the Kruger National Park and the private, communal and provincial protected areas that make up the open system of the Greater Kruger Area.</p> <p>Main speakers:</p> <ul style="list-style-type: none">• Mr. Greg Martindale and Mr. Chris Galliers, Conservation Outcomes• Dr. Marisa Coetzee, General Manager Regional Integration and Planning, SANParks (South Africa)
18:00-20:00	<p>Towards the development of a Regional Wildlife-based Economy Framework: Economic growth & job creation (SADC, GIZ, UNEP)</p> <p>Session brief: This session will unpack the national and regional efforts in the SADC region towards the development of a wildlife-based economy. Natural resources can play a critical role in contributing towards local, national and regional economies, through tourism, forestry, fisheries, ecosystem services, bio-prospecting and other activities. Hon. Minister Nqobizitha Mangaliso Ndhlovu of Zimbabwe will deliver the welcoming remarks, after which SADC Secretariat will present on its efforts to develop a regional Framework.</p> <p>Ms. Melisa de Kock, Head of the Biodiversity, People and Landscapes Unit, UNEP will moderate a panel discussion on the importance of national and regional frameworks to unlock a wildlife-based economy and create the necessary enabling environment.</p> <p>Main speakers:</p> <ul style="list-style-type: none">• Mr. George Wambura, Wildlife Programme Officer, SADC FANR• Dr. Marisa Coetzee, General Manager Regional Integration: Kruger National Park, SANparks (South Africa)• Prof. Patience Gandiwa, Director TFCA and Conventions, Zimparks (Zimbabwe)• Dr. Rodgers Lubilo, Regional Community Chair, Zambia• Mr. Roland Vorwerk, Expert, Africa Nature-based Tourism Platform

Daily Calendar for Friday 22nd July 2022

09:00-10:30	<p>Conservation clinic: Critical management & leadership success factors for tourism concessions (IUCN TAPAS, GIZ)</p> <p>Session brief: There are many success stories of tourism concessions in the SADC region. There are also many that do not successfully conclude the concession engagement process, and many that find the post contract award management difficult. With the view that various guidelines are available, the discussion will focus on the management and leadership aspects of tourism concession management. Discussion points will include robust short-, medium- and long-term policy & strategy benefits, the mandates and positioning of public-private-partnership (PPP) leaders in organizations and relating to 'doing it right first time', personality profiles of PPP leaders and how tourism skills/knowledge attributes balance with that of concession transactions. A discussion on where the management of concessions i.e., contract engagement and contract management will follow to allow for critical thinking amongst delegates.</p> <p>Main speakers:</p> <ul style="list-style-type: none">• Mr. Giju Varghese, Director, Bhoomi Yatra Hospitality, Johannesburg, South Africa• Dr. Sue Snyman, Director of Research, School of Wildlife Conservation, African Leadership University
10:30-12:00	<p>Cross-border nature-based tourism market development in SADC TFCA (SADC, Boundless Southern Africa, GIZ)</p> <p>Session brief: TFCA in Southern Africa have been identified as key anchors for the growth of regional tourism, based on the high levels of interest in Nature, Culture and Community based tourism in the SADC region. The sessions will focus on cross-border nature-based tourism market development in the SADC TFCA presented by SADC, Boundless Southern Africa, GIZ and partners from TFCA member states. We will present on and discuss the linkages of multi-country tourism in and around TFCA and the strategy of TFCA tourism market development in the region as a driver for regional growth, including the Boundless Southern Africa brand initiative. We will review a number of case studies of cross-border tourism events, cross-border tourism market development, and provide an overview of various successful initiatives, planned initiatives and learnings moving forward.</p> <p>Main speakers:</p> <ul style="list-style-type: none">• Mr. Nicholas Tucker, Regional Tourism Expert and Technical Advisor, AFC / Giza on behalf of the SADC/GIZ C-NRM Programme• Mr. Nunes Mazivile, Technical Advisor TFCA, SADC FANR• Mr. Roland Vorwerk, Expert, Africa Nature-based Tourism Platform
12:00-14:00	<p>SADC Transfrontier Conservation Areas: approach to landscape connectivity, development, & regional integration (SADC, Member States)</p> <p>Session brief: The session will present some key successes of TFCA development from TFCA across the SADC region. Starting with an overview presentation on the SADC TFCA Network, the following case studies will be presented:</p> <ul style="list-style-type: none">• KAZA TFCA (Angola, Botswana, Namibia, Zambia, Zimbabwe) and its innovative approach around Wildlife Dispersal Areas;• Niassa-Selous TFCA (Mozambique, Tanzania) and its effort to set-up all necessary structures to become an established TFCA;• Rewilding and restocking of TFCA using the examples of Mozambican component of GLTFCA and Lubombo. <p>Mr. Nunes Mazivile, Technical Advisor TFCA, SADC FANR, will moderate brief discussion sessions after each case-study presentation.</p> <p>Main speakers:</p> <ul style="list-style-type: none">• Ms. Naambo Josephine Ipinge, TFCA Coordinator, Ministry of Environment, Forestry and Tourism (Namibia)• Dr. Nyambe Nyambe, Executive Director, KAZA TFCA• Dr. Fortunata Msoffe, TFCA Coordinator, Tanzania / Mr. Rob Harris, Ruvuma Transboundary Landscape Coordinator, WWF Tanzania• Dr. Bartolomeu Soto, Country Director, PPF Mozambique
14:00-15:30	<p>Local Communities: First Line of Defense (FLoD): a tool for verifying assumptions when engaging local communities (SADC, IUCN & SAWC)</p> <p>Session brief: This session will provide background to the development of the Local Communities: First Line of Defence against Illegal Wildlife Trade (FLoD) methodology. We will explain how the methodology works and how it has produced unique lessons and insights into the importance of articulating and testing theories of change and their underpinning assumptions when designing and implementing community-based conservation initiatives. We will trace the evolution of the methodology and will introduce new training materials and future plans for supporting the use of this methodology in the SADC Region.</p> <p>Moderated by Dr. Holly Dublin, this session will consist of an introductory presentation, followed by an interactive interview session, and Q&A with the audience, to further explore the potential of using FLoD to more effectively bring out the local community voice in order to improve the conservation of natural resources in the SADC region.</p> <p>Main speakers:</p> <ul style="list-style-type: none">• Mr. Leo Niskanen - Regional Head, Biodiversity Conservation, IUCN Eastern and Southern Africa Regional Office• Mrs. Elna de Beer - Technical Associate, Southern African Wildlife College

Daily Calendar for Friday 22 nd July 2022 <i>contd.</i>	
16:00-17:30	<p>Panel Discussion: Introduce Transboundary Water Governance in Trans-boundary Natural Resource Management for Africa (USAID Resilient Waters Program, GIZ)</p> <p>Session brief: The session will explore the role TBNRM can play in promoting a change in the paradigm for transboundary conservation that is more centred on ecosystems, its goods and services, by exploring the benefits provided by using water as a key driver of transboundary conservation, specifically for water scarce areas with erratic and/or abused ground and surface water sources. The panel discussion will focus on the following:</p> <ol style="list-style-type: none"> 1. How should TFCA's and Transboundary River Basin Organisations with overlapping land use and livelihoods improvements objectives co-ordinate their work? 2. Are MOUs between TFCA's and River Basin Organizations an effective instrument to ensure co-operation? 3. How can we build synergistic work programs with RBOs and TFCAs? <p>Moderator: Ms. Olanda Bata, Chief of Party, USAID Resilient Waters Program</p> <p>Main speakers:</p> <ul style="list-style-type: none"> • Ms. Naambo Josephine Lipinge, TFCA Coordinator, Ministry of Environment, Forestry and Tourism (Namibia) • Mr. Kevan Zunkel, Former International Coordinator, Maloti-Drakensberg TFCA • Mr. Steve Collins, Livelihoods and Adaptation Advisor, USAID Resilient Waters Program
18:00-20:00	
Daily Calendar for Saturday 23 rd July 2022	
09:00-10:30	
10:30-12:00	
12:00-14:00	<p>Making TFCA's more inclusive & responsive to community needs (USAID Resilient Waters Program, GIZ)</p> <p>Session brief: TFCAs are government driven programs that can have both positive and negative impacts on communities living in the landscapes. Many of these communities were divided by colonial powers and found themselves in different countries. Can TFCA's play a role in re-establishing community cultural connectivity? How can impacted communities participate in decision making within TFCA's?</p> <p>This lunchtime session will be a panel discussion focusing on the following</p> <ol style="list-style-type: none"> 1. The Community Declaration made at the 2019 Vic Falls Wildlife Economy Summit and subsequent developments such as the creation of the Community Leaders Network and outputs of APAC 2. The KAZA and GLTFCA Livelihoods Diversification Strategies. 3. The SADC Guidelines for Community Engagement in TFCAs <p>Moderator: Mr. Farai Mavhiya, Biodiversity Advisor, USAID Resilient Waters Program</p> <p>Main speakers:</p> <ul style="list-style-type: none"> • Mr. Gwinyai Muti, International Coordinator, GLTFCA • Mr. Crimildo Armando, ReGeCom (Community-Based Natural Resources Management Network), Mozambique • Mr. Cristian Ndlovu, CAMPFIRE Youth Program, Zimbabwe
