

Background

- RNP is one of 21 National Parks.
- Contractual Park between SANParks and the Richtersveld community.
- RNP agreement was signed on 20 July 1991.
- RNP proclaimed on 16 August 1991.
- Treaty signed 1 August 2003 (99year)
- Managed by RGBK (Richtersveld Joint Management Committee)
- 162445 ha in extent
- Kleinduin en Oograbies Wes farms near Port Nolloth. (+- 18 000ha)
- World Heritage Site (adjacent)

Vision of RNP

"To maintain a world class, sustainable contractual park, whereby the aesthetic landscape, biodiversity and self-identified cultural practises from the local people are protected and respected and where mining is allowed within the realm of best environmental practises"

Conditions of agreement

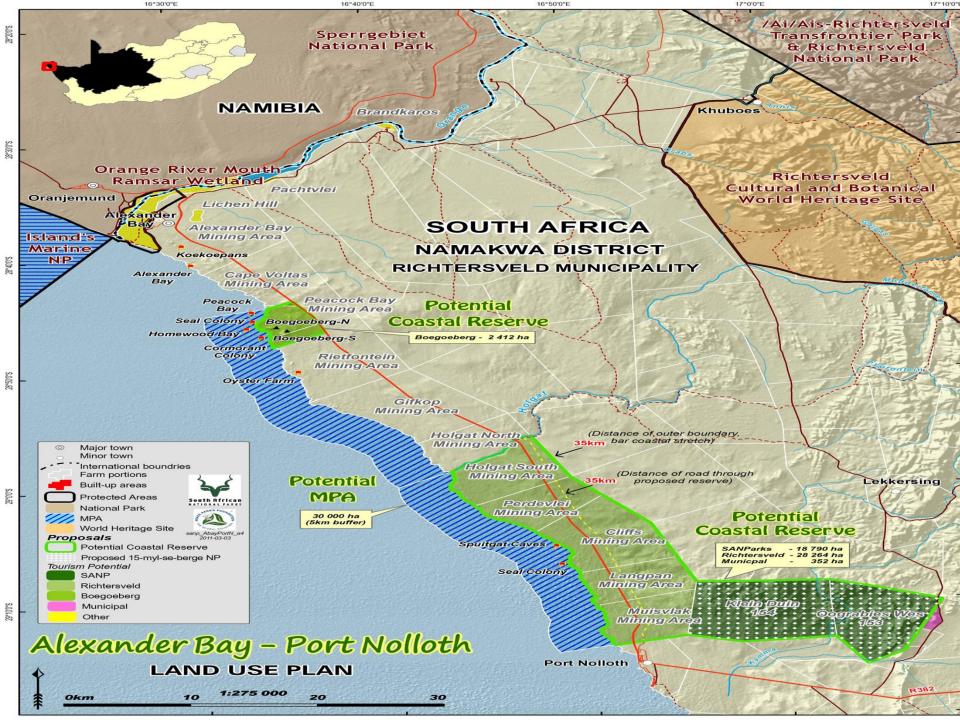

- On a 30 year lease give or take 6 years
- RGBK consists of 5 community members (elected by IEC) and 5 SANParks officials
- SANParks pay an annual "rent" to the Trust (R0,50c/ha going up to R 7.00/ha)
- Livestock farmers allowed to graze within the park (6600 small stock units)
- SANParks employ only people from community exceptions
- Quarterly meetings with RGBK
- Establishment of Nursery
- Mining to continue as per EIA

Expansion possibilities

- Kleinduin and Oograbies Wes farms
- Corridor Wes Farms
- Inclusion of Coastal section between Port Nolloth and the Holgat river, as well as Boegoeberg
- Contractual between SANParks and Richtersveld CPA
- High in biodiversity (endemic plants, seal colonies, cormorant colonies), cultural (strandloper people) and archeological (desert roses, fossils etc).
- Huge tourism potensial

Roles and Responsibilities

- SANParks is the management authority guided by the Park Management Plan.
- Day to day operations managed by SANParks guided by RGBK.
- Funded by SANParks
- All staff to come from community as per agreement – are exceptions
- All development as per management plan (every 10 years review)
- People and Parks officer direct interaction with community

Governance

- Signed Park agreement (currently under review)
- NEMA, NEMPAA,
- National Parks Act (Act no. 57 van 1976)
- Finance PFMA
- Staff Employment equity Act, Labour relations Act, OHS Act etc.

Benefits

- RNP is owned by the Richtersveld community and managed by SANParks and the community through the RGBK
- SANParks pay annual rent into the community trust which is then utilised by the community for projects.
- RNP employs 31 permanent community members, 4 pontoon operators, 4 Environmental monitors and 3 temporary staff
- The BSP projects employs 7 contractors with 13 employees per contract as well as an Admin officer. Projects have increased over the years from one to seven.

Benefits - Continue

- Through the Transfrontier conservation initiatives SANParks have managed to link the Nama community on both sides of the border.
- Communities participate on the annual events such as Desert Knights MTB Tour and the Richtersveld Transfrontier Wildrun
- Through funding received from GiZ the ARTP started the Desert Kayak trails which is run by the communities and they all were trained as river guides. Idea for them to take over – multi million Rand industry
- Due to the increase in tourism numbers to the area the tourism products in the community area has also benefited the community.

Effectiveness

- Has worked well for the past 25 years –
 initially was a rocky road before trust
 developed between parties.
- Benefits both parties
- Currently the park not profitable due to various reasons. Will change in future.
- Expansion due to good working relationship
- Transparent and open communication.
- Mining and stock farming in contradiction with biodiversity but is managed and working
- Ensure objectivity at all times IEC as example

THANK YOU
